No one here dies of cancer ... Where is this and why?

Dear <firstname>

In virtually every town and every city across the world, people are dying of cancer.

But for the people of the suburbs in the shantytown of Noiva-do-Mar, Brazil, **"Cancer is not a problem,"** says Father Arno Reckziegel, the friar appointed to the suburban parish.

"Or rather, it is a problem that has a solution," says Father Reckziegel.

"Everyone in this town knows the recipe. **No one here dies of cancer** because the recipe is not a secret. Only those who do not wish to live die of cancer in this town. **If this disease is diagnosed, everyone knows the answer** and everyone makes use of it. I and many others have *witnessed simple folks getting cured of cancer every day.*"

Learn how a 5,000-year-old "recipe" discovered in Noiva-do-Mar, Brazil **has spared thousands from cancer**. Make sure you don't miss the part that shows you how, today, some of the best cancer centers and oncologists in the world have scientifically proven this all-natural formula -- and are prescribing it to cancer patients -- because it's working. The recipe effectively **stops the growth and spread of cancer**.

This is hard to believe but true. Thousands of people who once had cancer -- of all different types and even late-stage cancer -- tried this recipe and are now living healthy, cancer-free lives.

Don't delay. There's not a person on earth who cannot benefit from this anti-cancer, immunity-boosting recipe.

Subject 2: "Not a trace of cancer ANYWHERE in her body!" Report reveals how...

Dear <firstname>

**"Not a trace of cancer anywhere in her body!
We owe my mom's health and recovery
to this heaven-sent tonic."**

If you or someone you love has cancer, you know how terrifying that path is. Sadly, most of us will walk down this path...

The World Cancer Organization reports that ONE in FOUR men and ONE in FIVE women die from cancer every year; and that, by 2030, over 21 million people worldwide are expected die from cancer. At a time when we desperately need advances in medicine to work, the reality is that traditional cancer treatments are failing miserably.

But for thousands who have taken an [anti-cancer "recipe" discovered in Brazil](#), their cancer experiences have taken a **very different path** and have a **very different ending** -- like this woman, whose mother was dying of stage IV cancer...

"During chemo my mom **didn't experience any chemo side effects**. She was not nauseous, did not lose her hair, or lose any weight. It was *the opposite of all the chemo nightmares you hear*. Her hair only thinned, but she still had a full head of hair, her blood levels were always perfect. The doctor was always dumbfounded at her results every time he saw her and her blood was drawn.

To make this long story short **my mom's chemo was cut short** and the doctor decided to test her after her 3rd cycle.

My mom had her **PET scan and the scan came back NEGATIVE**. There was **not a trace of cancer anywhere in her body!** Her doctor is still amazed and she is still doing great today, years later.”

We owe my mom's health and recovery to this heaven-sent tonic.”

“This substance crucial when treating Cancer”

Dear <firstname>

Most medical doctors agree that **the immune system is capable of healing just about anything** -- *IF it's not suppressed*. And it is a widely accepted medical belief that, when your immune system is working correctly, it's impossible to get cancer -- or any other disease, for that matter.

However, it is also a well-established fact that a depleted, worn-out, under-energized immune system is not capable of killing cancer cells, especially as fast as they multiply.

What you might not know is that there's a [Brazilian anti-cancer “recipe”](#) that people all over the world have been taking to help

their own immune system fight cancer ... with thousands of astonishing **full recoveries**, even in late-stage cancer.

The recipe gives you a *true arsenal* of substances that are **essential for OPTIMAL immune system functioning** -- including 20 minerals, 12 vitamins, 18 amino acids, phytonutrients, monosaccharides, polysaccharides, terpenoids, proteins, essential oils, metals, enzymes, and more. It **floods your body with nutrients and healing and protective properties**.

According to Dr. Ivan Danhof, Ph.D., M.D., North Texas Research Laboratory in Grand Prairie, Texas, who is recognized as one of the world's top experts on the primary ingredient in this recipe and has helped to **pioneer critical work aimed at isolating its healing agents**, says...

“It is in the **boosting of the immune system's response to antigens** (foreign elements in the body) that this ingredient **has shown the most promise in treating cancer**.

It is clear from research conducted throughout the world over the past 30 years that certain phyto-therapy substances in this ingredient have **very dramatic and impressive anti-cancer effects**. It has demonstrated to enhance the immune system's response to cancer, promote the growth of new and healthy cells, and reduce the overall viral load within the body, thereby **revitalizing the body in its fight against the cancer**.”

-- Dr. Ivan Danhof, Ph.D., M.D

One of the major benefits of this formula is that it gently **detoxifies, purifies, and cleanses** the entire body.

When you take the recipe, it **performs the recovery and revitalization of the immune system** with a cleansing operation that literally **sweeps invading elements from the cells**. It wrings out the “sponges” of the body that have absorbed so many toxins in the attempt to act as a safety valve.

“Headline”

Dear <firstname>

Dr. Paolo Lissoni, one of the top oncologists in the world, had heard that an anti-cancer “recipe” discovered in Brazil was “curing” thousands of people who had all different types of cancer -- even late-stage cancer.

To see if this was true or even possible, Dr. Lissoni and 6 other top scientists tested the recipe on 240 patients with early to late stage “untreatable” metastatic cancer, including cancers of the lung, colon, stomach, and pancreas.

The results were **ABSOLUTLEY ASTONISHING**. [See for yourself](#) the clinical results *quoted* from the original research at the St. Gerardo Hospital in Milan, department of radiation oncology, division of surgery.

Some of the patients were treated using *only* chemotherapy, while the others were treated using the recipe **AND** chemotherapy at the same time.

According to the study the recipe:

- ❖ “Not only had a **direct oncostatic effect**, but also **improved the desired effects and results of chemotherapy.**” (An “oncostatic effect” is one that reduces the occurrence of cancers, reduces the severity of cancers that do occur, or acts against cancers that occur, based on *evidence* from clinical studies).
- ❖ “The percentage of both **tumor regressions and disease control** was **significantly higher in patients treated with this recipe AND** chemotherapy than with chemotherapy alone.”
- ❖ “The anti-cancer activity of this recipe does not depend only on its immune-modulating effect,

as believed until now, but also on a **direct inhibition of cancer cell proliferation (spread).**”

- ❖ “Enhanced chemotherapy in terms of both **tumor regression rate** and **survival time** as well as **reducing toxicities.**”
- ❖ “**Asthenia (loss of strength) and/or fatigue were significantly less frequent** in patients treated with the recipe *AND* chemotherapy than in those who received chemotherapy alone.”
- ❖ “**Corrects the most frequent side-effects of chemo** ... constipation was significantly less frequent” (in those who received the recipe).
- ❖ “Was well tolerated in all patients and **no undesirable side effects** were observed.”

Subject 1: How to stop your body’s cancer “grow” messages (signals?)...

Subject 2: ...How to stop cancer cells from communicating, which is how they grow...

“Headline”

Dear <firstname>

Did you know that when someone has cancer, 500 million NEW cancer cells grow in their body *every single day*? It’s true ... and this is precisely how cancer becomes such an uncontrollable disease.

As Dr. Johanna Budwig of the Budwig Center explains, “Cancer becomes uncontrollable when each day the body produces some 500 million new cells -- and these 'new cells' are a **mirror**

image or 'photocopy' of the original cells.”

“If the original cell is damaged, then the copy will be

damaged as well. That is why we need to correct the 'original document' -- the DNA. Otherwise it will keep producing millions and trillions of defective 'copies.'”

The implications of this faulty messaging are staggering because **cancerous cells never stop communicating to proliferate**. Therefore, to stop cancer, cancer's *communication system* must be shut down.

Scientists have recently discovered that the main ingredient in a newly discovered anti-cancer “recipe” from Brazil, Aloe Arborescens, **actually STOPS cancerous cells from communicating.**

Aloe Arborescens (not to be confused with Aloe Vera) contains unique sugars called **mannans** (mannan polysaccharides), which enhance cellular communication — both within and between cells.

Mannans are responsible for billions of messages which are part of a **crucial “telegraph” system capable of preventing or slowing down cancer**. When communication sequences in and between cancer cells are disrupted, it induces apoptosis, or cell death.

According to Dr. Ivan Danhof, Ph.D., M.D., North Texas Research Laboratory, Grand Prairie, Texas, who is recognized as one of the world's top experts on aloe and has helped to pioneer critical work aimed at isolating aloe's healing agents:

“To maintain a healthy body, cells must ‘talk’ to each other. Like thousands of different ‘keys’ projecting from the cell surface, they either unlock the required functions of the adjoining cell or not. **If the right keys are available, the body functions smoothly. If not, it doesn't.**”

The best source for these special, long chain molecules has proven to be a *specific type and properly processed aloe.*”

Not all aloe is created equally. Learn how this specific type of aloe, when properly processed, gives your body active anti-cancer properties that can stop cancer and many other diseases.

Subject 1: Why haven't you heard of this cancer "cure" when so many are dying?

Subject 2: With so many dying of cancer, why isn't this "cure" known to everyone?

"Headline"

Dear <firstname>

Hopefully by now you've read about the many doctors and scientists who have recently found a unique anti-cancer "recipe" that's actually WORKING. It's literally putting thousands of cancer patients -- even late-stage cancer -- into **permanent remission**.

So why haven't you heard of this cancer "cure" when so many are dying?

The World Cancer Organization reports that ONE in FOUR men and ONE in FIVE women die from cancer every year. And that, by 2030, over 21 million people worldwide are expected die from cancer.

When one sees that even the wealthiest celebrities and powerful people get cancer, fight it, but still painfully deteriorate and die, you realize that even the "best care money can buy" is often worthless.

Unfortunately, many doctors can't tell you about this [anti-cancer "recipe" discovered in Brazil](#) or any "natural or alternative health therapies" and stay employed. **Insurance regulations would preclude such suggestions.**

Many doctors could get into administrative trouble by recommending non-drug treatments for cancer. And of course there are many doctors who *just don't know* such natural solutions exist.

But the TRUTH is evident, according to many doctors and scientists, including Dr. David W. Tanton, Ph.D. In his book, "*Taking the Mystery Out Of Cancer: Cancer Prevention and Cure Is Possible*," which is based on a half century of research pulled together from some of the most brilliant scientists in the entire world, Dr. Tanton explains how:

"Over and over, alternative therapies have cured cancer

victims, when traditional therapies (surgery, radiation, and chemotherapy) have failed miserably. After doctors gave patients their ultimate death sentences, (normally a few months to live), it was then in desperation that some **finally turned to alternative therapies, which quite often totally resolves the cancer.**”

Dear <firstname>

This is the last email I'll send you for a while, but for your sake and the sake of your family and friends, I hope you spent a few minutes to learn about the [anti-cancer, immunity-boosting “recipe”](#) that I've been telling you about.

If you don't believe all the healing stories from real people ... if you don't believe the health practitioners who are prescribing it to their cancer patients ... at least believe the evidence-based science that proves the recipe stops the growth and spread of cancer -- and eliminates chemo's painful side effects.

And please, before you go today, **consider this...**

Forward this email or the link to this website report (www.aloeimmuneformula.com) to everyone you care about -- *especially to someone who's presently battling cancer or any disease* for that matter as soon as possible.

There isn't a person on earth who cannot benefit from this recipe. You'll make a tremendous difference in someone's life by sending them this report -- and you might even save a life!

Father Romano Zago and Deca Aloe wish you and all around you a life filled with vibrant health and freedom from disease!
