

How This Little-Known Brazilian “Recipe” is Saving Thousands From Cancer

New science reveals this may be the
most potent healing substance EVER found on earth

Dallas, TX -- In the shantytown of Noiva-do-Mar, Brazil, they **discovered a cure for cancer that most of the world has never heard of**. And IT WORKS -- because it's putting thousands of cancer patients into permanent remission.

Father Arno Reckziegel, the friar appointed to the suburban parish, made this shocking announcement to the Friars Minor of Rio Grande do Sul:

“It is possible to cure cancer. This is why cancer is not a problem for the people of the suburbs. Or rather, it is a problem that has a solution.”¹

-- Father Arno Reckziegel, OFM (Order of the Friars Minor)

Father Reckziegel stated that, “In the suburbs and outskirts of this shantytown, I've witnessed *simple folks getting cured of cancer every day*.”¹

In fact, as he would later discover, it's been curing cancer and many other diseases for over 5,000 years. Even Hippocrates, who is considered the father of modern medicine, used this cure 2,400 years ago to heal many diseases.¹¹

When his fellow friars gasped in amazement and asked *What's that cure?* Father Reckziegel said, **“It's a simple, cheap, and natural recipe.”**

“Everyone in the shantytown knows the recipe. **No one there dies of cancer** because the recipe is not a secret. Only those who do not wish to live die of

cancer in the shantytown. **If this disease is diagnosed, everyone knows the answer.** And everyone makes use of it.”

Another friar, Father Romano Zago, who at the time was at the San Antonio parish in Pouso Novo, Brazil, learned from Father Reckziegel and the local natives about this potent all-natural recipe they were using to cure cancer. Not only that, he had the opportunity to **witness the results for himself**.

Father Romano Zago was shocked and amazed by the “miraculous” cancer-curing results of this recipe. After witnessing cure after cure and as a member of the Order of the Friars Minor (OFM), a priesthood wherein friars take a solemn vow to poverty and to *dedicating their entire life only to helping mankind*, Father Romano vowed to spend the rest of his life educating as many people as possible about this recipe that **can save countless lives** from cancer and other disease.

Today, this recipe has spared thousands worldwide from suffering and dying from cancer -- even stage 4 cancer -- such as this man, who was the first person Father Romano Zago gave the recipe to and personally witnessed a full recovery:

Father Romano Zago, OFM (Order of the Friars Minor), Brazilian scholar and author

“Giovanni Mariani is undeniable proof that the recipe can overcome this dreadful disease...”¹

Giovanni Mariani from Forqueta, Brazil had been **diagnosed with terminal prostate cancer** and was in the Marques de Sousa hospital when I learned his doctors said, “There is no cure for his case ... **he only has a few days to live.**”

I found Giovanni in the room extremely weak. The ill man’s wife, Gemma, looking stressed and worried over the seriously grave state of her husband, took my arm at the door and said:

“Father, please tell Giovanni he has cancer. I want him to confess and be prepared for his imminent death. I am asking you this because I want my husband to go to heaven when he dies.”

I listened to Giovanni's confession and blessed him, then **I gave him the cancer-curing recipe**.

I wanted Gemma to **keep giving Giovanni the recipe 3 times a day, every day, until he was restored to health**, but Genna recoiled with doubt saying...

“With all the money spent throughout the world, how could such a simple

recipe perform such a miracle?!"

She would not budge from her skepticism and continued to believe that her husband would die. In her mind, this dreadful fate was hopeless.

Luckily, the couple's son Rubens and their daughter Rejane agreed to keep giving the recipe to Giovanni.

About 8 days after I first gave Giovanni the recipe, I saw Rejane in town and asked her, "*Did you give him the recipe I prescribed? Did he take it correctly?*"

"Yes, Father," she assured me. "It was made just as you instructed and father took it every day and is still taking it. But he is so weak! Excuse me for saying this, but he looks like a dead tree lying in bed. What a dreadful disease!"

I said, "Look, if he has taken the medicine, as you assure me, don't worry. All will be well."

I told her:

***"The problem is when people
refuse to take it."***

"You know, Father," she recounted, "*something strange has happened. Did you know my father had a swelling at stomach level? A swelling as large as a tennis ball? **The strange thing is, it has disappeared!***"

"Ah, then I must congratulate you, because **your father is out of danger. He has won the battle against cancer.** If this were not the case, then why would this swelling have *gone away*? On the contrary, it would be even bigger. In other words, the recipe has been successful and your father will be all right, believe me."

Giovanni Mariani, little by little, started to eat more. After a few days, he left his bed. He started to walk up and down the hallway, and then outside. And soon after, he returned to work.

In the year 2002 when Father Zago first documented this true story ... this miracle ... **Giovanni Mariani was still alive at over 80 years old and in full health.**

Some may doubt like Giovanni's wife did, but the fact remains that, **although he had cancer, Giovanni Mariani is undeniable proof that the recipe can overcome this dreadful disease.**

-- Father Romano Zago, Brazil, 2002¹

After witnessing **dozens of patients diagnosed with untreatable cancer enter remission after drinking this potent tonic** and hearing of thousands more with the same results, Father Romano Zago has now spent more than 20 years researching the science behind the recipe. Still today, his sole purpose is to educate the world that this cancer solution exists.

However, in telling the stories and science behind the effectiveness of this “cure,” this is in no way making an attempt to prescribe a treatment for cancer or any other human disease. Neither is the information presented herein intended as medical advice, but rather a sharing of knowledge and information from Father Romano Zago's and many scientists and doctor's own research and experience. You are encouraged to make your own health care decisions based upon your research and in partnership with a qualified health care professional. See Disclaimer at the bottom of this webpage.

But the truth is, as Father Romano Zago writes in his book, *Cancer Can Be Cured*, he receives news from people all over the world, throughout five continents, about how **this recipe has helped thousands regain their health and survive almost every cancer, including:**

- | | | | |
|--------------|------------|-------------|--------------------|
| • Brain | • Ovaries | • Rectum | • Throat |
| • Cerebellum | • Breast | • Bladder | • Face |
| • Lungs | • Prostate | • Intestine | • Lymphatic system |
| • Liver | • Uterus | • Colon | • Blood system |
| • Kidneys | • Bone | • Skin | • Spinal column |

According to Father Romano Zago, this recipe isn't just for cancer patients, it is for anyone who wants to STAY healthy even as you age and better fend off disease so it doesn't manifest in the first place.

Sound too good to be true? *It's absolutely true* -- making this perhaps one of the most important articles you'll ever read, or you'll read for your family.

For the next few minutes, as you put any skepticism aside and **read this entire article**, you'll see how Father Romano Zago's recipe, which contains one of the most potent -- *if not THE most potent* -- substances ever found on earth, and has been scientifically proven to:

■ Make the immune system work as it was designed to -- correcting cellular functioning and eliminating foreign and toxic material in the body -- so it is impossible for disease to survive.^{1, 5, 6, 13, 14}

■ Directly kill cancer, reduce the occurrence of cancers, and reduce the severity of cancers that do occur.^{2,5,6}

■ Stop the growth and spread of cancer by shutting down cancer's communication system (within and between cells).²

■ Make chemotherapy more effective.²

■ Eliminate chemotherapy's excruciating side effects (nausea, vomiting, hair loss, constipation, and loss of energy and strength).²

■ Prevent cancer and other illness and disease from manifesting in the first place.¹³

Before I tell you about the **astonishing** scientific evidence, you should know that it has already proven so effective that...

Today, Many Health Practitioners are Prescribing the Recipe to Cancer Patients

One of the most famous health/cancer centers in the world, the **Budwig Center**, prescribes Father Romano Zago's recipe not only to cancer patients, but to patients afflicted with *many* common illnesses.

According to the Budwig Center, founded by Dr. Johanna Budwig, a seven-time alternative Nobel Prize nominee who spent 50 years helping thousands of people with cancer regain their health:

“This cure works to help reverse not just cancer, but you can use the Brazilian recipe to provide the body's immune system a potent remedy for **over 100 types of illnesses**, including cancer, diabetes, depression and obesity.

There are more than 1,000 testimonials over the past 20 years of people turning around even advanced stages of cancer using this recipe along with a corrected food program (such as the Budwig protocol).”

-- Budwig Center (pictured: Dr. Johanna Budwig)

Other doctors, like Dr. Lloyd Jenkins, Dr. Steven Nemeroff, Dr. Frank Shallenberger, Dr. Toney Jimenez, and Dr. David Tanton are part of growing list of doctors who are prescribing the recipe to their cancer patients as part of an integrative cancer treatment.

But it's not just health practitioners believing in the recipe and thousands of people who are telling their stories of full recoveries...

Top Scientists and Cancer Centers Confirm This Recipe Stops Cancer ... Even Advanced Stages of Cancer²

If you don't believe all the healing stories from real people ... if you don't believe the health practitioners who are prescribing it to their cancer patients ... at least believe the **evidence-based science that proves the recipe stops the growth and spread of cancer -- and eliminates chemo's painful side effects.**

Dr. Paolo Lissoni (right), is one of the top oncologists in the world. At the St. Gerardo Hospital in Milan, Italy, division of oncology, Dr. Lissoni along with six other top scientists, tested 240 patients with early to late stage “untreatable” metastatic cancer, including cancers of the lung, colon, stomach, and pancreas.

Some of the patients were treated using *ONLY chemotherapy*, while the others were treated using the recipe *AND* chemotherapy at the same time. The study used Father Romano Zago's *exact* recipe.

The results were **ABSOLUTLEY ASTONISHING**. See for yourself the clinical results *directly quoted* from the original research.

The study verified that the recipe:

“Contains one of the most important plants exhibiting anti-cancer activity. Its anti-neoplastic* property is due to at least three different mechanisms, based on anti-proliferative, immune-stimulating, and antioxidant effects.”

**Anti-neoplastic - preventing the development, maturation, or spread of abnormal new growth (i.e., tumors).*

-- Dr. Paolo Lissoni, St. Gerardo Hospital, Milan, Italy²

These clinical responses were radiologically evaluated after at least three cycles of chemotherapy by repeating the same radiological investigation used prior to the onset of chemotherapy, including CT scan, NMR and PET...”

*Scientifically Proven...*²

- “Not only had a **direct oncostatic effect**, but also **improved the desired effects and results of chemotherapy.**” (An “oncostatic effect” is one that reduces the occurrence of cancers, reduces the severity of cancers that do occur, or acts against cancers that occur, based on *evidence* from clinical studies).
- “The percentage of both **tumor regressions and disease control** was **significantly higher in patients treated with this recipe** *and* chemotherapy than with chemotherapy alone.”
- “The anti-cancer activity of this recipe does not depend only on its immune-modulating effect, as believed until now, but also on a **direct inhibition of cancer cell proliferation (spread).**”
- “Enhanced chemotherapy in terms of both **tumor regression rate** and **survival time** as well as **reducing toxicities.**”
- “**Asthenia (loss of strength) and/or fatigue** were **significantly less frequent** in patients treated with the recipe *and* chemotherapy than in those who received chemotherapy alone.”
- “**Correct the most frequent side-effects of chemo ...** constipation was significantly less frequent” (in those who received the recipe).
- “Was well tolerated in all patients and **no undesirable side effects** were observed.”

Today, physicians and clinics around the world have prescribed this recipe as a cancer “cure” for many years now.

The medical community has categorized this recipe a Stage IV Supplemental treatment, to be used with Stage IV protocols like radiation and chemotherapy. Many clinics are now using it to **significantly increase the effectiveness of the chemo agents** cyclophosphamide (Cytosan, Neosar) and 5-fluorouracil (5-FU).³ It complements the effects of chemotherapy by slowing down tumor growth and increasing survival time.

“It’s been effective in **relieving the debilitating effects of chemotherapy** and strengthens the body in regaining physical and psychological wellbeing after chemotherapy-related aftereffects.”¹

In a recent AIDS study, nearly everyone in the study who took the recipe got better, as indicated by skyrocketing white T-cell counts.⁴

“One year later his tumors were gone...”

One patient from this trial had **advanced liver cancer** and was *given less than two months to live*. His liver was four times normal size. **He kept taking the recipe, improved gradually... and one year later his tumors were gone.**⁴

Doctor’s OWN cure made him an advocate...

Dr. H. Reginald McDaniel, M.D. and pathologist, also involved with this trial, was initially skeptical. Seeing seriously ill patients with AIDS and/or cancer improve was good. But what really sealed it for him was a disease of his own -- **viral pneumonia** -- which conventional medicine couldn’t cure. He drank the recipe and **his own cure made him an advocate.**⁴

Other doctors, like Dr. Giuseppe Nacci, M.D., also confirm that this recipe stops the growth and spread of cancer.

Dr. Nacci, a distinguished pioneer in nuclear medicine, participated in the first experiments on man using oncological (cancer) radio-innuo therapy. He holds a patent for at least one cancer therapy and published, *“Thousand Plants Against Cancer Without Chemo-Therapy.”*

Dr. Nacci research of the Aloe Arborescens health formula found that it induces **“direct cytotoxic action”** (the ability for your own immune system to search out and destroy specific types of infected cells) and **“normalizes the biochemical and functioning of the body in a time window that varies from 2 to 6 months.”**⁵

In addition, research in 2010 at the Laboratory of Nutrition and Cancer at State University of Campinas, São Paulo, Brazil concluded the following:

“The effect of the solution on tumor growth was evident in the treated group compared with the untreated group.

Upon tumor growth analysis, the tumors in the treated group were smaller in mass (represented by a decrease in relative weight (%)) (*bottom photo*) compared with the tumors in the non-treated group (*top photo*), **and this difference**

continued to increase at later time points, *especially on day 20* after the original tumor implantation.”⁶

You'd think, since this recipe has clearly been proven to stop the growth and spread of cancer, that it could **easily fight off almost any illness or disease** -- *and it can*.

*Scientifically Proven...*⁷

- Stops the growth of tumor cells
- Controls cancer cell communications
- Lowers cholesterol / triglycerides
- Oxygenates your blood
- Reduces inflammation
- Relieves joint and muscle pain
- Protects you from oxidative stress
- Supports your kidney
- Prevents kidney stones and protects the body from oxalates in coffee and tea
- Halts colon cancer, heals the intestines and lubricates the digestive tract
- Alkalizes your body, balances your acid levels
- Cures ulcers, IBS, Crohn's disease, and other digestive disorders
- Reduces high blood pressure naturally, by treating the cause, not just the symptoms
- Nourishes the body with minerals, vitamins, enzymes and glyconutrients
- Accelerates healing of physical and radiation burns
- Ends constipation

- Boosts cardiovascular performance and physical endurance
- Speeds wound and injury recovery
- Hydrates your skin, accelerates skin repair
- Prevents candida infections
- Stabilizes blood sugar and insulin levels
- Functions as nature's own "sports drink" for electrolyte balance
- Heals bursitis and tendonitis
- Stops hair loss
- Heals herpes simplex of the mouth and lips
- Cures gingivitis, tonsillitis, and mouth and throat irritations
- Stops acne, reduces brown or white marks on the skin (liver marks or chloasmata, congenital marks)

And the list goes on and on with these and even more health benefits that the main, all-natural ingredient in this recipe delivers.

What is this Recipe?

And How Can a *Natural* Substance Eradicate a Serious Disease Like Cancer?

The main ingredient in this cancer "cure" recipe is **one of the most powerful plant-based substances -- if not *THE* most powerful -- ever found on earth.** Many doctors, like Lee Cowden, M.D., call it "***The Miraculous Natural Healer.***"⁸

But can it really stop a serious disease like *CANCER*? Now that *would* take a miracle, wouldn't it?

But as you've already read and will read more below, there are many, *many* reports of these "miracles" happening after people take this recipe, like this woman, whose mother had **stage 4 lung cancer**:

“Not a trace of cancer anywhere in her body! We owe my mom's health and recovery to this heaven-sent tonic.”

“During chemo my mom **didn't experience any chemo side effects**. She was not nauseous, did not lose her hair, or lose any weight. It was *the opposite of all the chemo nightmares you hear about*. Her hair only thinned, but she still had a full head of hair, and her blood levels were always perfect. The doctor was always dumbfounded at her results every time he saw her and her blood was drawn.

To make this long story short **my mom's chemo was cut short** and the doctor decided to test her after her 3rd cycle.

My mom had her PET scan and the scan came back *NEGATIVE*. There was not a trace of cancer anywhere in her body! Her doctor is still amazed and she is still doing great today, years later.”

We owe my mom's health and recovery to this heaven-sent tonic.”

-- Excerpted from a letter from Jocelyn Chang, New Jersey, sent to Luis Quiroz Ravines of themiracleofsharing.org

**This simple, cheap, and natural
anti-cancer recipe contains
*Aloe Arborescens***

**... and two other ingredients that must be
precisely combined in order to stop cancer**

I know. I know. You're probably thinking, “Aloe? Really? C'mon, how can ALOE wipe out a serious disease like *cancer*?”

For starters, this isn't to say you shouldn't listen to your doctor. This is to encourage you to **add this to your fight against cancer** (whether you have it already or not). And if you ever undergo chemotherapy, to consider adding it to the treatments since it's proven to make chemo more effective and eliminate all or many of the painful side effects. This is to say **just try it, especially if you have cancer**, since traditional cancer treatments are failing miserably.¹²

Secondly, **this isn't the aloe you'll find in grocery stores...**

While almost everyone has heard of the extraordinary healing ability of Aloe Vera, **almost no one has heard of Aloe *Arborescens*** -- except those living in regions of the world where it grows naturally.

Compared to Aloe Vera and the 300+ known species of aloe, only Aloe *Arborescens* has **the highest concentration of active properties** -- at least 3 times higher⁵ -- which is why it's garnering such great attention and praise from so many scientists and health practitioners.

Aloe plants are among the world's most biologically active plants, meaning they feed our cells with living nutrients. For a long time, the Aloe Vera species was considered by many to be the single most healing herb ever found on earth. It has anti-cancer and anti-parasitic properties and it repairs DNA. It protects us from viruses and bacteria, and restores the immune system.⁹

But when **Aloe *Arborescens*** came under the microscope, scientists such as Dr. Aldo Facetti, phytology technician and herbalist at the Palatinin Salzano Venezia Institute in Italy, found that it is **200% richer in medicinal substances and contains more than 70% of anti-cancer properties** compared to Aloe Vera, which contains 40% of these properties.

The extremely high concentrations and **healing synergy** (from the combination of properties) in Aloe *Arborescens* is what scientists have discovered gives it an almost miraculous **ability to heal, protect, and correct the human body**. It's unlike any other substance.

Like many traditional doctors, Dr. Peter Atherton, MB ChB, DObst RCOG, FRCGB used to wave off the power of this natural medicine, saying...

“I was certainly unaware of its fabled medicinal properties...”

“...and as a strictly conventional physician I had no interest in any form of complementary or alternative medicine. In fact, I was almost dismissive of claims made by alternative practitioners and felt they largely achieved their 'cures' by way of a placebo effect.”¹⁶

But after seeing the healing power for himself and doing his own research, Dr. Atherton now explains how aloe's properties have a **“synergistic effect ... i.e. they can be likened to working together as a team so that the *total effect is greater than would be expected* from the combined individual effect of each substance.”**

Dr. Peter Atherton, MB ChB,
DObst RCOG, FRCGB

Heals, Protects, and Corrects the Human Body

It's only recently that scientists have learned how to concentrate the active ingredients in aloe to levels far, far, far beyond what was possible before. The process of isolating the active ingredients in Aloe Arborescens has **progressed to almost unimaginable levels** -- and that's why we're now understanding how this, the most powerful aloe ever found, is capable of stopping even serious diseases like cancer.

Dr. Ivan Danhof, Ph.D., M.D., North Texas Research Laboratory, Grand Prairie, Texas, who is recognized as one of the world's top experts on aloe and has helped to pioneer critical work aimed at isolating aloe's healing agents identified **over 300 medicinal properties that heal, protect, and correct the human body.**

Dr. Ivan Danhof Ph. D., M.D.

These potent properties don't just stop cancer, they stop disease in general because they:

- Optimize the functioning of the entire immune system.
- Detoxify, purify, and cleanse the body, especially cleans and normalizes the blood.
- Facilitate the repair of cells, tissues, and organs.
- Promote the destruction and elimination of invading foreign matter, including cancer, bacteria, viruses, fungus, and parasites.

The main properties in Aloe Arborescens that have proven to have the most potent **immune-boosting** effects and have direct **anti-tumoral (*prevent tumor growth*)** and **anti-proliferative (*prevent tumor spread*)** effects are listed below. These same properties work to **eliminate or significantly reduce chemo's side effects**, including pain.

Cancer-Fighting, Immunity-Boosting Properties in Aloe Arborescens^{1,5,15}

- **Polysaccharides** – the estimated 9,000-molecule polysaccharides **eliminate antigens (foreign and toxic material in the body) such as cancerous cells**. Strengthens the immune system. Activates **Phagocytes** (meaning "to eat" or "to devour") that are the white blood cells that protect the body by ingesting harmful foreign particles, bacteria, and dead or dying cells.
- **Anthraquinone** – molecule that has anti-bacterial and antiviral properties that **cause cytotoxic (cell-killing) effects on tumorous cells**. Anti-bacterial and anti-viral. Detoxifies, purifies, and cleanses the body.
- **Acemannan** – a long-chain sugar that interjects itself into all cell membranes, increases the fluidity and permeability of the membranes, so that toxins and foreign matter flow out of the cells for elimination and nutrients can enter the cells more easily. Also immuno-stimulating and immuno-modulating.
- **Aloemodin** – molecule that has important cytotoxic (cell-killing) effects on predaceous (cells preying on other cells) to **single out and kill pre-cancerous and cancerous cells**.
- **Phenolic** – molecule that has intense antioxidant activity, similar to that of tocopherols, that **neutralizes cancer-causing free radicals** in the body, which are responsible for molecular and subcellular alterations that cause the onset of the aging and precancerous processes.
- **Monosaccharide** – a nutrient that our energy level is dependent upon, and is necessary to fight and prevent cancer, and **reduce the energy-depleting effect of chemo**.
- **Chrysophanic Acid** – purifying agent with a tonic effect. Fungicidal, especially in the intestine. A gentle purgative, excretor.
- **Cinnamic Acid** – has an antiseptic, germicidal, and strong detergent action.
- **Salicylic Acid** – performs antiseptic, **painkiller**, anti-bacterial, and **anti-inflammatory** functions (is also a vital ingredient in the

making of aspirin). It's **calming and soothing** action is similar to steroid-based anti-inflammatory drugs without the damaging side effects.

● **Isobarbaloin** – anthraquinone glycoside that has a marked **analgesic effect** (relieves and eliminates pain) and acts as a natural antibiotic.

“Revitalize and Restore the Immune System”

Most medical doctors agree that **the body's own innate immune system is capable of healing just about anything -- *if it's not suppressed***. And it is a widely accepted medical belief that, when your immune system is working correctly, it's impossible to get cancer -- or any other disease, for that matter.

However, it is also a well-established fact that a depleted, worn-out, under-energized immune system is not capable of killing cancer cells, especially as fast as they multiply.

Disease often begins with contamination or toxification of the body caused by a poor diet, lifestyle, substance abuse, or exposure to harmful elements. With time, this can shut down the immune system and mutate cells.

For most of your life, your immune system successfully fought cancerous cells, killing them as they developed. For cancer to develop, your immune system would have had to shut down (fully or even partially).

What the recipe gives you is a *true arsenal* of substances that are **essential for FULLY OPTIMAL immune system functioning**.

It *floods* your body with nutrients and healing, protecting, and correcting properties -- including 20 minerals, 12 vitamins, 18 amino acids, phytonutrients, monosaccharides, polysaccharides, terpenoids, proteins, essential oils, metals, enzymes, and more.

One of the major benefits of this formula is that it is gently **detoxifies, purifies, and cleanses the entire body**.

In doing so, **the recipe performs the recovery and revitalization of the immune system** operation that literally **sweeps invading toxins and elements from the cells.**

It wrings out the “sponges” of the body that have absorbed so many toxins and invaders in the attempt to act as a safety valve.

Father Romano Zago explains it like this: “With your blood clean, every organ functions well. It is like a motor car. If you use a good fuel, your car runs longer without giving you major headaches. But if you risk inferior fuel anything can happen.”¹⁴

As Dr. Ivan Danhof, Ph.D., M.D. explains, it:

“Revitalizes the body in its fight against cancer...”

“It is in the boosting of the immune system's response to antigens (foreign elements in the body) that aloe has shown the most promise in treating cancer.

It is clear from research conducted throughout the world over the past 30 years that certain phyto-therapy substances in aloe have **very dramatic and impressive anti-cancer effects**. Aloe has been demonstrated to enhance the immune system's response to cancer, promote the growth of new and healthy cells, and reduce the overall viral load within the body, thereby **revitalizing the body in its fight against the cancer.**”

-- Dr. Ivan Danhof, Ph.D., M.D.¹³

Stops Cancer Cells From Communicating ...Making it Impossible for Cancer to Grow and Spread

Imagine 500 new cancer cells being produced in your body *every single day!* Well, when cancer is in your body, that's exactly what happens and how the disease becomes *uncontrollable*.

As Dr. Johanna Budwig of the Budwig Center explains, “Cancer becomes uncontrollable when each day the body

produces some 500 million new cells -- and these 'new cells' are a mirror image or 'photocopy' of the original cells."¹⁴

"If the original cell is damaged, then the copy will be damaged as well. That is why we need to correct the 'original document' -- the DNA. Otherwise it will keep producing millions and trillions of defective 'copies.'"¹⁴

The implications of this faulty messaging are staggering because **cancerous cells never stop communicating to proliferate.** Therefore, to stop cancer, cancer's *communication system* must be shut down.

How Aloe Arborescens Stops Cancerous Cells from Communicating

Aloe Arborescens contains unique sugars called **mannans** (mannan polysaccharides) that enhance cellular communication — both within and between cells.

Mannans are responsible for *billions* of messages that are part of a **crucial "telegraph" system capable of preventing or slowing down cancer.**¹⁰ When communication sequences in and between cancer cells are disrupted, it **induces apoptosis, or cell death.**

"Like thousands of different 'keys' ... they either unlock the required functions ... or not."

"To maintain a healthy body, cells must 'talk' to each other. Like thousands of different 'keys' projecting from the cell surface, they either unlock the required functions of the adjoining cell or not. **If the right keys are available, the body functions smoothly.** If not, it doesn't.

The best source for these special, long chain molecules **has proven to be a specific type and properly processed aloe.**

These very large molecules are immune modulating, which have a **powerful healing effect on AIDS, cancer, and many different immune system disorders.** It is also this large molecule that causes the body to produce a natural chemical, tumor necrosis (cause cell death or apoptosis) factors, which functions to **shut off the blood supply to tumors.**"

-- Dr. Ivan Danhof, Ph.D., M.D.¹³

Why Haven't You Heard of this Cancer “Cure” When Millions Are Dying Every Day?

Sadly, the World Cancer Organization reports that ONE in FOUR men and ONE in FIVE women die from cancer every year. And that, by 2030, over 21 million people worldwide are expected die from cancer.

When one sees that even the wealthiest celebrities and powerful people get cancer, fight it, but still painfully deteriorate and die, you realize that even the “best care money can buy” is often worthless.

Unfortunately, many doctors can't tell you about this or any “natural or alternative health therapies” and stay employed. **Insurance regulations would preclude such suggestions.**

Many doctors could get into administrative trouble by recommending non-drug treatments for cancer. And of course there are many doctors who *just don't know* such natural solutions exist.

But the TRUTH is evident, according to other doctors and scientists, including Dr. David W. Tanton, Ph.D. In his book, “*Taking the Mystery Out Of Cancer: Cancer Prevention and Cure Is Possible,*” which is based on a half century of research pulled together from some of the most brilliant scientists in the entire world, Dr. Tanton explains how:

“Over and over, alternative therapies have cured cancer victims...”

“Over and over, alternative therapies have cured cancer victims, when traditional therapies (surgery, radiation, and chemotherapy) have failed miserably. After doctors gave patients their ultimate death sentences, (normally a few months to live), it was then in desperation that some **finally turned to alternative therapies**, which quite **often totally resolves the cancer.**”

Dr. David W. Tanton, Ph.D., Holistic Nutrition, Clayton College of

Natural Healing¹²

Many of these same people may be the very ones who have used Father Romano Zago's recipe as an alternative cancer cure. Indeed there are many who send him letters with their healing stories. Often they are from parents who, like any parent desperate to save their child, will try *anything*. They are glad today that they tried the recipe as you'll read below...

Micol, a 13-year-old who lives near Ancona in Italy, had **brain cancer** since she was five. She had three surgeries at the Oncological Centre in Paris, perhaps the most famous in the world. However, the cancer came back with double the strength. No cortisone or morphine could calm the pain. A fourth operation was not possible.

After taking a bottle of the Aloe treatment, the child was no longer in pain. She could ride her bike, play and talk. However, tests showed that the disease was still spreading through her body. After taking a second round of the recipe, the results of another cycle of tests were completely different. **There was no longer any trace of the disease.**¹

Gregorio from Milan in Italy had a tumor of 9 cm in the **bladder**. The doctors in Como were preparing to operate, but couldn't decide whether to remove the bladder and replace it with a plastic one or leave him without a bladder. **After taking one round of the recipe, the tumor decreased from 9 to 2 cm. After a second round, Gregorio's tumor disappeared.** The doctors were astounded! Gregorio lives his life with his own, perfectly healthy bladder.¹

A woman named Miriam had a nephew, a man of about 50, who along with three other friends, had had surgery (which lasted about 12 hours) for **throat cancer**. She was desperate to save him, as he still had small children to look after.

After taking several bottles of the recipe, the happy ending is that Miriam's nephew now manages properties and **leads a normal life**. His three friends, who had throat surgery in the hospital without using the recipe, all died, one after another.¹

In Jordan, a boy with **cancer of the face**, deformed through the treatment which he went regularly to the United States for, took three doses of the aloe preparation. According to the Sisters of St. Dorothy from the Latin Patriarchate Seminary in Beit Jala, Bethlehem, **the boy was cured and stopped making those expensive journeys abroad.**¹

Rita and Paolo's three-year-old daughter, Carolina, from Florence in Italy, had **leukemia**. Although she did go to the hospital to have chemotherapy, she took a bottle of the aloe preparation at the same time. **Her test values decreased from 70% to 30%.**

The doctors explained these results to her parents in the following way: Before the treatment there was a kind of desert in Carolina's body. But after with the aloe, her body was filled with flora, scattered here and there, and **the symptoms of the disease decreased**. The latest news is that Carolina is well.¹

Father Lorenzo, Conventual OFM from Parma, had **colon cancer**. The doctors opened his lower stomach but could do nothing. Before closing him up, they decided by mutual consent to perform a colostomy, to give him the chance, depending on how well he recovered, to have some radiotherapy and chemotherapy in an attempt to prolong his life.

He began taking the aloe blend and just three months after the operation, Father Lorenzo's health was so good that the doctors who operated the first time removed the sack they had applied. The priest currently lives his 70+ years of age smiling and happy, sought after throughout the world as a charismatic confessor.¹

Some of these people traveled hundreds of miles to get this recipe. But today, anyone can get this simple, cheap, and natural anti-cancer, super immune-boosting solution because Father Romano Zago's...

Original Recipe is Now Available in a Bottle

By now you could probably see why store-shelf and other aloe juices you'll find on the internet are NOT the same as Father Romano Zago's original recipe -- not even close. Even if they do contain Aloe Arborescens -- it is over-processed, heated, and diluted, the soil isn't pristine, the leaves aren't picked at the right time, and the light exposure is not controlled during the harvesting to preserve the active properties.

Deca Aloe Arborescens U.S., LP (Deca Aloe) is the **ONLY** North American company that manufactures Father Romano Zago's original recipe exactly as it must be to stop the growth and spread of cancer and other disease.

Deca Aloe uses only premier quality 5-year-old (and older) plants processed by grinding the leaf into a liquid without heating, cold pressing, or freeze-drying to retain all the active healing properties.

Father Romano Zago's name on the label vouches for the authenticity of the original Brazilian formula in each bottle with the recipe's 3 ingredients:

■ Aloe Arborescens whole leaf juice

■ Honey -- *no* synthetic or refined honey, only raw, pure pesticide-free, unheated, non-pasteurized

■ Organic Alcohol

The distillate dilates your blood vessels and facilitates general cleansing so that in the space of 15 days, the blood is completely purified.

The honey is a natural transporter. It is the vehicle that carries the aloe, taking it to every cell in every corner of your body.

As one of nature's true "super-foods," it contains all the substances necessary to sustain life (including enzymes vitamins, minerals, and water). It has a low-glycemic index because though it is sweet, it does not have the same properties as cane sugar, so it **doesn't pose a problem with diabetics.**⁶

In fact, this kind of honey has its own anti-cancer properties. Research shows it causes, "The inhibition of tumor cell transformation and proliferation, and induction of apoptosis (cell death),"⁶

Dr. Nacci also validates how critical honey is to the recipe:

"Honey is of primary importance...on which the whole immune cascade response to tumors depends."

"The preparation must be made with a very high-quality organic honey, avoiding at all costs honey made from a mix of flowers ('millefiori'), a side product of other honeys.

Honey is of primary importance because it carries the different immune-modulating substances of Aloe (Aloctin, Aloemannano, and Zinc) to the very delicate T gammadelta lymphocytes (immune cells) ... on which the whole immune cascade response to tumors depends (cytotoxic T lymphocytes, Natural Killer, macrophages, granulocytes, etc.)."

-- Dr. Giuseppe Nacci, M.D⁵

And finally, to ensure the same anti-cancer effects as the original recipe, Deca Aloe follows **precise processes and strict growing and harvesting methods**, including:

■ The soil conditions and quality the plants grow in -- which are pristine in Italy -- must be organic and completely chemical-free.

■ Aloe plant must be at least 5 years old.

■ No rain during the previous 5 days before harvesting.

■ Pick the aloe at the right time of the day with the least light -- early morning or late evening -- to preserve the active properties.

■ Grind leaves into juice immediately after picking and add natural preservatives for a 1-year shelf life.

■ Blend with honey and distillate.

■ Keep in dark amber, non-toxic bottle (blocks light to protect active properties). Refrigerate after opening bottle.

Mature 5-year-old Aloe Arborescens plants grown naturally in Deca Aloe's greenhouses in Italy annually yield over 15,000 tons of leaves and 23 million bottles of the original recipe.

Father Romano Zago proudly promotes Deca Aloe worldwide as the one and only source that upholds the integrity, quality, and effectiveness of the original recipe. He **recommends Deca Aloe as the only reliable source** because other manufacturers don't go through the painstaking process to get the formula perfectly right; and because he realizes that people cannot possibly prepare the recipe themselves.

Some people have tried to prepare the recipe at home without success. This is why:

1. The ingredients were not well chosen. For example, synthetic honey purchased from inferior sources was used in place of genuine, raw, unheated, non-pasteurized honey.
2. The plant was not well chosen.
3. Yellowish, almost dry leaves were used.
4. The leaves used were too young.

5. The preparation was not taken in the right doses.
6. After having taken the first bottle regularly, in the cases of incomplete cure or no cure, the treatment was suspended and the person did not have the control tests.
7. The person became discouraged and suspended the treatment after a few days, convinced that this was just another syrup, like many others, and that it had no effect.
8. The preparation was taken only sporadically, when the person remembered.

Is This Recipe For You?

As you read this, it's probably easy to think of someone you know who has been affected by cancer. When you think about how many *millions of people* are affected when those who lost their battle with cancer leave loved ones behind to grieve the loss *for the rest of their lives*, especially children, you realize the enormity and tragedy of this worldwide epidemic.

Practically everyone knows *someone* who has been affected in some way by this horrific disease. Someone who has just been **diagnosed** and is shell-shocked and full of fear. Someone who has experienced the hellacious process and excruciating side effects of **chemotherapy or radiation**. Or someone who, perhaps after *years* of fighting and suffering, has already **died**.

Have you ever wondered if that someone might be YOU some day? How do you know if, right now, there aren't cancer cells lurking in your body, but you have yet to feel any symptoms?

The fact is, no one is safe from cancer. And it's hard to know when cancer might become a threat because most people don't get full-body scans on a regular basis since they are astronomically expensive and not covered by insurance (go figure).

So as you're reading this right now, you may be asking yourself, "*Is this recipe for me?*" Clearly the answer can only be **YES** -- because this recipe is for anyone who wants to stop the growth and spread of cancer -- and isn't that every single one of us?

Most people who've used Father Romano Zago's recipe **just went ahead and tried it** -- and experienced great healing and even full recovery from cancer. Maybe they

didn't totally understand all the science behind this powerful phyto-therapy, but since the recipe cost just pennies a day and satisfaction is guaranteed, there was *nothing to lose* -- and only good health to gain.

Simple and Inexpensive to Take as a Cancer Treatment and Disease Preventative

■ **As a cancer therapy:** Take 1 tablespoonful 3 times a day for 10 days. Stop for 10 days. Resume for another 10 days. Continue this regimen until all signs of cancer disappear. Monitor symptoms and test results regularly.

So in other words, 10 days on, 10 days off, 10 days on, and so on, until full health returns.

■ **As a preventive and in remission:** Do the 10-day regimen of 1 tablespoonful 3 times a day, once every 3 months (*just 4 times a year*).

So you take one bottle for 10 days, and 3 months later you take another for 10 days, and so on -- to power up your body's own innate immune defense system and in doing so, stop cancer and other disease from growing and spreading.

At 1 tablespoon 3 times a day, one bottle lasts about 10 days. Product has a 1-year shelf life.

1 bottle (16 oz.) - **\$69.99**

single bottle

4-pack (16 oz. bottles) - **\$239.80**

Saves you \$40 when you order 4 bottles instead of 1 at a time.

4-pack

6-pack (16 oz. bottles) - \$329.70

Best choice if you're fighting cancer. Saves you \$90.24 when you order 6 bottles instead of 1 at a time.

6-pack

\$6.99 a Day to Help Your Body Kill Cancer

What you may not realize looking at the prices above is that your cost to help your body kill cancer with this proven recipe is only \$6.99 a day.

How is it only \$6.99 a day to kill cancer? For the recipe's 10-day cancer regimen of 1 tablespoon 3 times a day for 10 days, you'll go through 1 bottle, which is \$69.99 -- or \$6.99 a day.

That's about what you'd pay to go out for lunch, go to a movie, or buy a coffee and pastry at Starbucks ... and it's a LOT LESS than what traditional cancer treatments cost per day.

Even if it takes many bottles over several months or even a year to kill the cancer, if you're fighting this horrid disease and trying to save your life, **what price can you put on something that's worked for thousands of people who now live cancer-free?**

If you or someone you love has cancer, ask yourself this: Is it worth \$6.99 a day to...

- Directly kill cancer, reduce the occurrence of cancers, and reduce the severity of cancers that do occur.*
- Stop the growth and spread of cancer by shutting down cancer's communication system (within and between cells).*
- Make chemotherapy more effective.*
- Eliminate or significantly reduce chemotherapy's painful side effects (nausea, vomiting, hair loss, constipation, and loss of energy and strength).*
- Keep cancer from coming back.*

Clearly for such a small price per day, it makes sense for anyone who has cancer to

at least TRY the recipe, especially since it proved effective by multiple cancer centers and oncologists -- not to mention that it is 100% natural with no side effects.

For a fraction of the cost of traditional cancer treatments, most of which are failing, you can now significantly improve your chances of surviving cancer by taking the recipe. Take it alone or as a supplement to other treatments like chemo ... not just to make those treatments more effective, but so you'll feel better (more energy, less or no side effects).

Certainly if you are a cancer patient who is or will be undergoing chemotherapy ... *why wouldn't you* want to take something that clinics are now using as a "Stage IV Supplemental" and IS WORKING to **significantly increase the effectiveness of the chemo agents -- and eliminate most or all of chemo's painful side effects?**

The fact is that most people *would take this anti-cancer recipe* ... they just don't know it exists.

65¢ a Day to Arm Your System Against Disease All Year, Every Year

What if you're healthy and don't have cancer? Do you need the recipe? Is taking the recipe worth it?

Is 65¢ a day worth it to help your body better defend itself against cancer (and other illness and disease) all year every year? Is significantly increasing your chances that you'll never get cancer in the first place worth it? Is flooding your body with super-nutrients and properties that heal, protect and correct worth it?

How is it only 65¢ a day to arm your system against disease all year? For the recipe's prevention regimen, you only need to take 4 bottles per year. A 4-pack is \$239.80, divided by 365 days in a year, equals 65¢ a day to be healthier and fight disease all year.

That's less than a cup of coffee or tea you'd make at home ... or about as much as 1 bottled water costs you.

When you think about it, 65¢ a day is **about what you'd pay to take a high-quality multi-vitamin everyday** -- but your multi-vitamin doesn't give you *anywhere near* the health benefits that the recipe does. I'm not saying you should stop taking a multi-vitamin; I'm saying take the recipe for OPTIMAL health and vitality and so your body can effectively fight off illness and disease.

Still wondering if it's worth it?

Ask yourself this: is it worth 65¢ a day to ...

■ **Make the immune system function optimally**, as it was designed to, so it can effectively:

- detoxify your body
- boost your natural defenses
- correct cellular functioning
- eliminate foreign and toxic material from the body

... all which makes it impossible for disease to survive or manifest in your body the first place.

■ **Flood your body with rich, essential nutrients and properties that heal, protect, and correct** -- 20 minerals, 12 vitamins, 18 amino acids, phytonutrients, monosaccharides, polysaccharides, terpenoids, proteins, essential oils, metals, enzymes, and more.

■ **Have more energy** -- natural, lasting energy, not a buzz from coffee or a sugary sport drink.

■ **Reduce pain.**

The recipe has long-lasting effects because it **primes** your defense systems and body's functioning. It's just like adding a can of premium gas additive to your car to make it run smoothly and perform the way it's designed to by cleaning out the sludge and tuning up the engine. Then, months later, you put in another can to keep it clean and running at its best.

It's the same with taking the recipe -- you take one bottle every three months to promote **systemic detoxification** and keep your immune system working at its prime -- so it can stop attacks on your health before they become a serious illness or disease.

You can even take a bottle every month if you want to. You can't overdose and there are no side effects.

100% Satisfaction Guaranteed or Your Money Back

Deca Aloe are so sure you'll feel better and be amazed by the health recovery and revitalizing benefits of this recipe ... that you get the following **unconditional guarantee for a full 45 days**:

If you're not totally, 100% completely satisfied after consistently using the recipe, simply contact Deca Aloe anytime in the first 45 days and we'll personally make sure you get a prompt, courteous refund. No questions asked.

Your decision *today* could make a dramatic difference *tomorrow*

Now, the only decision you need to make is this: Which of the following would you rather entrust your healing (and the healing of your loved ones) to? (Check one.)

- Using **ONLY** traditional cancer therapies, which are failing miserably, and leave cancer patients practically lifeless, with tissue damage they must live with for the rest of their lives, *IF* they survive.
- Trust the elaborate, *expensive* and often *invasive* treatments and procedures offered by big-business, big-profit medicine.
- A simple, cheap and natural **anti-cancer, super-immune-boosting** phyto-therapy that's easy and **painless** to use at home -- and which is **scientifically proven** not only to **prevent illness and disease** *without* *adverse effects*, but stop the growth and spread of cancer, and be used **WITH** chemo to make it more effective, while eliminating or greatly reducing chemo's painful side effects.

For your sake and the sake of your family, I hope you'll make the right decision in partnership with your doctor or a qualified health care professional. There is absolutely no risk to **start taking Father Romano Zago's original recipe** for all its anti-cancer, health-preserving benefits.

1 bottle (16 oz.) - **\$69.99**

single bottle

4-pack (16 oz. bottles) - \$239.80

Saves you \$40 when you order 4 bottles instead of 1 at a time.

6-pack (16 oz. bottles) - \$329.70

Best choice if you're fighting cancer. Saves you \$90.24 when you order 6 bottles instead of 1 at a time.

When you **order here**, you're getting the **ONLY guaranteed original recipe** that has been approved by Father Romano Zago and scientifically proven.

Father Romano Zago, OFM (Order of the Friars Minor), aloe and health researcher, Brazilian scholar and author, publicized this recipe for the benefit of all mankind. He has collaborated exclusively with Deca Aloe Arborescens, S.R.L. in Italy and the North American affiliate, Deca Aloe Arborescens US, LP, to allow his name to be used exclusively in connection with the production and distribution of this Brazilian recipe for a whole leaf Aloe Arborescens-based recipe. It is the only product on the market authorized to carry his signature on the label to vouch for the authenticity of this exacting recipe in each bottle.

Only the Deca Aloe formula is produced from 5-year old Italian Aloe Arborescens plants harvested at the proper time, processed by grinding the whole leaf without heating, cold pressing or freeze drying in order to retain all the active glucomannan polysaccharides (4%), such as mannose (2 ml per serving) to guarantee maximum effectiveness in immune system support. It also contains unheated, raw, pesticide-free honey (6.4 g per serving) and 1% certified organic alcohol for the purest and most effective absorption when taken short- or long-term.

And please, consider this...

Forward the link to this website report (www.aloeimmuneformula.com) to everyone you care about -- *especially to someone who's presently battling cancer or any disease* for that matter as soon as possible.

There isn't a person on earth who cannot benefit from this recipe. You'll make a tremendous difference in someone's life by sending them this report -- and you might even save their life!

Father Romano Zago, OFM

We sincerely wish you and all around you a life filled with vibrant health and freedom from disease,

*Father Romano Zago
and
Decca Aloe Arborescens International, Inc.*

“Prevents cancer-causing substances from entering the liver, thus slowing or stopping the development and spread of cancer...”

“Aloe both stops the processes of inflammation necessary for tumors to gain new blood supplies and the growth of tumors themselves. It also prevents cancer-causing substances from entering liver tissue, thus slowing or stopping the development and spread of cancer.

Aloe does *not* change the chemistry of the liver itself like many other cancer treatments do, which only adds to the complexity and resistance of ridding the body of cancer.”

-- **Phyllis A. Balch**, CNC, world-renowned health advisor, 25+ years researcher of natural approaches to health and healing; co-author of *Prescription for Nutritional Healing* #1 best-selling guide to natural remedies in the U.S.
